Section 1

Thought there wasn't much inside.

Just another black bird

Sitting on a wire.

You looked at feathers,

Section 2

I've been studying you.

You didn't know—

That's the thing I always do.

But I was watching,

Section 3

Me... watching you.

Who's been watching?

Never guessed what I can do.

You called me simple,

Section 4

The things I can be.

But I will show you

That's what you believed.

Little brain?

Section 5

Not a simple-minded thing.

I build, I plan,

I remember everything.

I'm not just a bird,

Section 6

Every good and every bad.

Don't underestimate—

You better watch your back.

I remember faces,

Section 7

Who's the clever one now?

You can't figure me out.

Whoa-oh...(1st)

Whoa-oh...(2nd)

Section 8

Out of holes in broad daylight.

Pull a hidden dinner

Make a hook that fits just right.

I bend little branches,

Section 9

And I remember every spot.

Months go by—

Every seed in different lots.

Thousands of hiding places,

Section 10

It was a decoy all the while.

Nice try—

Study Mode

Think they're stealing what I hide?

If somebody's watching,

Section 11

Changing every move.

Or I'll dive bomb you.

Thinking ahead,

You best be careful

Section 12

While you think you're watching me...

I've been watching you.

Every little glance,

Every little clue.

Section 13

Every brand-new day.

Learning every moment,

That's my favorite way.

Every tiny puzzle,

Section 14

Look closely at my face...

Next time you see

I'm looking your way.

My steely gaze.
